The board of directors of Termbray Industries International (Holdings) Limited (the "Company") presents to shareholders the interim report together with the unaudited condensed consolidated financial statements of the Company and its subsidiaries (together the "Group") for the six months ended 30th September, 2008.

The unaudited consolidated loss attributable to equity holders for the six months ended 30th September, 2008 amounted to approximately HK\$5,950,000 (six months ended 30/9/2007: profit of HK\$8,638,000). An analysis of the Group's segment results for the period is set out on page 26 of this report.

The directors have resolved not to declare the payment of an interim dividend for the six months ended 30th September, 2008 (2007: Nil).

## **Review of Operations**

During the current six months period under review, the Group achieved a turnover of HK\$92,719,000 (six months ended 30/9/2007: HK\$3,425,000) and made a loss attributable to equity holders of HK\$5,950,000 (six months ended 30/9/2007: profit of HK\$8,638,000).

### **Property Investment and Development**

The operating environment for the Group's property investment and development business remains tough during the period under review. Property market in Guangdong Province of Mainland China ("PRC") is still generally slack. The activities of the Group's property projects, which are mainly located in the Guangdong Province, continue at a low level during the period.

The Group's completed properties for sale – Ever Success Plaza, comprising of over 440 residential units standing on 3 levels of commercial arcades and car parks, is located at a convenient and prime location with a river view in Zhongshan, Guangdong Province. The competition of the property market in Zhongshan is keen. There are abundant supplies of properties with modern design. Due to the vacancy of the commercial arcades, the occupancy rate of the residential units is also dropped. The management has put much effort in marketing the properties. The rental income earned by the Group during the period is decreased by 5.9%. As at 30th September, 2008, 227 residential units remained to be sold, out of which 182 residential units were let out. The set up of a larger scale computer and computer peripherals retail centre in western district of Shi Qi city caused a negative impact on the customer flow of the commercial arcades. The original tenant has early terminated the tenancy agreement for the commercial arcades in early this year.

Since June 2008, the Group has operated the commercial arcades itself with a business partner who has experience in running similar retail centre. The Group has 51% interest in the operating company. However, the occupancy rate is still not much improved, and the performance is not satisfactory. In November 2008, the Group has taken over the whole operation of the commercial arcades. The management is still trying hard to improve the situation by looking for innovative trendy commodities which is attractive to the consumers in Zhongshan.

With regard to the investment in Cong Hua White Swan Bow Yuen Real Estate Development Limited ("Cong Hua Bow Yuen"), the chance for the extension of the joint venture period of Cong Hua Bow Yuen remains very remote. Full provision for impairment loss against the property held by Cong Hua Bow Yuen had been made in the financial statements of the Group in the prior years.

### **Oilfield Engineering and Consultancy Services**

Last year, the Group succeeded in diversifying its principal activities into the oilfield related industry. The acquisition of Petro-king International Company Limited ("Petro-king HK") and Petro-king Oilfield Technology Limited ("Petro-king PRC", together with Petro-king HK as "Petro-king Group") was completed on 31st December, 2007.

During the period under review, the turnover of Petro-king Group slightly increased by 16% compared with the last corresponding period. The growth in business is consistent with the seasonal pattern. We still manage to open up Middle East and Asia-Pacific markets. We have already completed most of the pre-requisite contract processes. The demand for specific machinery tools are still very keen in the market. The lead time for delivery of our ordered tools is lengthy. We will try hard to complete most of the scheduled contract work done this year.

### **Treasury Investment Activity**

The Group still holds a substantial amount of funds of approximately HK\$0.7 billion which have been placed as short term bank deposit or investments in money market accounts with international financial institutions or fixed income notes generating a stable source of income to the Group. Subsequent to the balance sheet date of the current six months period and in view of the global financial crisis, the Group has realized most of the investments in money market accounts into cash and has transferred the cash to large financial institutions in Hong Kong.

There were no acquisitions of major subsidiaries or associates during the period under review.

There have been no material change in the contingent liabilities and charge on assets of the Group since 31st March, 2008.

## **Liquidity and Financial Resources**

The Group remains cash-rich and has no bank borrowings and no material capital expenditure commitments. The operations are financed by shareholders' funds and convertible notes.

The convertible notes of HK\$133,692,000 issued to King Shine Group Limited in last year are non-interest bearing and have a tenor of 3 years to be matured on 31st December, 2010. The noteholder shall have the right to convert the notes into ordinary shares of the Company, at the initial conversion price (subject to adjustments) of HK\$1.20 per conversion share, at any time and from time to time during the period commencing from 1st July, 2009 up to 31st December, 2010. On the maturity date, the noteholder shall be entitled to demand from the Company the full repayment of the outstanding principal amount of any outstanding and unconverted convertible notes (if any) in cash.

Exchange risk of the Group is minimal as the assets of the Group comprised substantially of cash, fixed income notes or money market funds denominated in United States currency which is officially pegged to the Hong Kong currency. No financial instrument are needed for hedging purposes in respect of interest rate and currency.

## **Order Book**

As at 30th September, 2008, the outstanding orders on hand for oilfield engineering and consultancy services is approximately HK\$310,000,000.

## **Staff and Emolument Policy**

As at 30th September, 2008, the Group employed 174 staff at market remunerations with staff benefits such as insurance, provident fund scheme, discretionary bonus and share option scheme.

The emolument policy regarding the employees of the Group is based on their merit, qualifications and competence. The emoluments of the directors are reviewed by the Remuneration Committee, having regard to the Company's operating results, individual performance and comparable market statistics. No director, or any of his associates, and executive is involved in dealing his own remuneration. The Company has a share option scheme as an incentive to directors and eligible employees.

## **Outlook**

The global economy sustained a stable and balance growth during the first half of this year. With the outbreak of the global financial crisis in recent months, the global economy is definitely adversely affected. We will need to monitor carefully how the economy is being affected and when it can be recovered. We believe China continues to play a key role in the future global economic recovery. The Group is confident to capitalize on these opportunities and will grasp every business opportunities available to build up its own distinctive strength and to explore new business in China.

Despite the fact that economic activities are expected to slow down, the demand for petroleum is still very keen but is maintained at a more reasonable pace. The multinational oil companies are still investing heavily on exploitation and production of petroleum in which Petro-king Group have the expertise in this niche market. Our existing client base is very solid and we have maintained very good relationship with them. They are still willing to keep on investing in oil exploitation activities and therefore we expect there are still orders from them for the coming years. We are cautiously optimistic about the future performance of Petro-king Group.

On 6th August, 2008, Petro-king PRC entered into an acquisition agreement with Beijing Hendrun Energy Environment Technology Limited to acquire the entire registered and paid up capital of Beijing Enruida Technology Co., Limited ("Enruida PRC") at a consideration of RMB40,000,000. On the same date, Petro-king Holding Limited also entered into an acquisition agreement with Wisdom Boom Investments Limited to acquire the entire issue share capital of Hendrun Technologies Industrial R&D Co., Limited ("Enruida HK", collectively with Enruida PRC referred as "Enruida Group") at a consideration of such sum equivalent to RMB135,000,000. Such consideration shall be payable partly in cash and partly by way of issue and allotment of the IPO shares of the listing vehicle of the Petro-king Group.

The relevant details of the acquisition of Enruida Group were announced on the Company's and the Stock Exchange's website on 12th August, 2008.

The Enruida Group provides oilfield engineering and technical consultancy services for domestic oilfields as well as environmental protection services in the oilfields including sewage treatment, waste management and pollution control.

In view of the global financial crisis and current stock market condition, the parties to the Enruida PRC Acquisition Agreements and the Enruida HK Acquisition Agreement (the "Acquisition Agreements") have reassessed the appropriateness of timing and merits of the terms of the Acquisition Agreements and mutually agreed on 31st October, 2008 not to proceed with the Acquisition Agreements. Each party to the Acquisition Agreements shall bear its own costs and disbursements in relation to the Acquisition.

The Group has incurred due diligence expenses of approximately HK\$5,100,000 so far in assessing and evaluating the Enruida Group. The termination of the Acquisition Agreements has no material adverse impact on the business development of the Group.

It is the Group's ongoing strategy to gain a foothold and develop in the natural resources sector by way of cautiously exploring different kinds of investment opportunities which will result in a steady growth in the Group's long term performance. On the other hand, we cannot ignore the fact that there exists some underlying risk factors such as oil and commodity price volatility, interest rate movements, the impact of global financial crisis, the recovery progress of the global economy and natural disasters. The Group remains cautiously optimistic about the year ahead in respect of diversification of business into natural resources sector and has the confidence to strengthen its competitiveness and to build value for our shareholders.

### Introduction

We have reviewed the interim financial information set out on pages 19 to 34, which comprises the condensed consolidated balance sheet of Termbray Industries International (Holdings) Limited as of 30th September, 2008 and the related condensed consolidated income statement, statement of changes in equity and cash flow statement for the six-month period then ended and certain explanatory notes. The Main Board Listing Rules governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of a report on interim financial information to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard (“HKAS”) 34 “Interim Financial Reporting” issued by the Hong Kong Institute of Certified Public Accountants. ### Scope of Review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity” issued by the Hong Kong Institute of Certified Public Accountants. A review of interim financial information consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly we do not express an audit opinion.

## **Conclusion**

## Notes to the Condensed Consolidated Financial Statements

For the six months ended 30th September, 2008

### 1. BASIS OF PREPARATION

The condensed consolidated financial statements have been prepared in accordance with the applicable disclosure requirements of Appendix 16 to the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the "Listing Rules") and with Hong Kong Accounting Standard ("HKAS 34"), "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA").

### 2. PRINCIPAL ACCOUNTING POLICIES

The condensed financial statements have been prepared on the historical cost basis except for certain financial instruments, which are measured at fair values, as appropriate.

The accounting policies used in the condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31st March, 2008.

In the current interim period, the Group has applied, for the first time, the following new amendments and interpretations ("new HKFRSs") issued by HKICPA, which are effective for the Group's financial year beginning on 1st April, 2008.

HKAS 39 & HKFRS 7 (Amendments)	Reclassification of Financial Assets
HK(IFRIC) – Int 12	Service Concession Arrangements
HK(IFRIC) – Int 14	HKAS 19 – The Limit on a Defined Benefit Asset, Minimum Funding Requirements and their Interaction

The adoption of these new HKFRSs had no material effect on the results of financial position of the Group for the current or prior accounting periods. Accordingly, no prior period adjustment has been recongised.

<sup>2</sup> Effective for annual periods beginning on or after 1st January, 2009

<sup>3</sup> Effective for annual periods beginning on or after 1st July, 2009

<sup>4</sup> Effective for annual periods beginning on or after 1st July, 2008

<sup>5</sup> Effective for annual periods beginning on or after 1st October, 2008

The adoption of HKFRS 3 (Revised) may affect the accounting for business combination for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after 1st July, 2009. HKAS 27 (Revised) will affect the accounting treatment for changes in a parent's ownership interest in a subsidiary that do not result in a loss of control, which will be accounted for as equity transactions. ### 9. GOODWILL

- (a) Guarantees were issued to banks by a subsidiary in respect of mortgage loans granted to property purchasers by banks amounted to approximately HK\$134,000 (31/3/2008: HK\$140,000) and, in this connection, the Group's bank deposits of HK\$2,027,000 (31/3/2008: HK\$2,034,000) were pledged to the banks as security. These guarantees provided by the subsidiary to the banks would be released by banks upon receiving the building ownership certificate of the respective property from the customers as a pledge for security to the mortgage loan granted. ### 16. PLEDGE OF ASSETS AND CONTINGENT LIABILITIES *(Continued)*

- (b) In connection with the disposal in 1999 of the subsidiaries engaged in the business of manufacture and sale of printed circuit boards, the Group has given warranties and undertakings to the purchaser as specified in the agreement for the disposal of these subsidiaries. It is the intention of management to contest the claims vigorously. No legal proceedings have yet been instituted against the Group for these claims. Based upon legal advice obtained, management is of the opinion that such claims, if materialised, would not result in any material liabilities to the Group in excess of the amounts already provided for in the condensed consolidated financial statements.
